NEW! Improved pawl design.

Increased durability!
Stress removed from teeth.
Missing center teeth to prevent auto-reversing.

Slim profile and streamlined teardrop ratchet head for improved access in the most compact areas.

Positive stop feature will prevent any over travel or lock up while switching.

Recessed shift lever to prevent accidental shifting to improve job efficiency.

Duplex nickel layer underneath hexavalent chrome provides brighter finish.

Locking flex head: Unique 9-position locking flex head ensures that the ratchet head maintains the desired position regardless of size or applied load.
